DETAILED ACTION

1. Receipt is acknowledged of the amendment filed 1/22/03.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1, 2, and 5-33 are rejected under 35 U.S.C. 102(e) as being anticipated by Ogasawara, US Patent No. 6,123,259.

Ogasawara discloses an electronic shopping system including customer relocation recognition comprising: a store computer system 50 and a mobile terminal 5 for organizing a consumer's movement through a retail facility in accordance with the consumer's current location and the locations of desired items on a shopping list, the shopping list is hosted on a customer IC card and read by a mobile shopping terminal; a price look-up table is maintained in a store database 55 and includes location indicia identified to each merchandise item of the store's inventory. When a product is scanned, that item's location indicia is assumed to represent a customer's current location. A desired destination item is taken from the shopping list or the recommended replenishment item list and a distance and direction metric is calculated based on the customer's current location. The system includes a processor capable of developing a recommended replenishment item list from a series of shopping history data records also hosted on the IC card. The mobile personal shopping terminal 5 communicates, via

RF energy, with a retail store's core server 50 for purposes of accessing the retail facility's database 55 connected in conventional fashion thereto. A wireless communication transceiver 32 provides the mobile terminal's control unit 20 with means for communicating with the retail facility core server 50 through an RF signal link. A wireless transceiver need not be directly affixed to the core server 50, a plurality of RF transceivers may be located at periodic intervals throughout the retail facility and connected to the core server 50 through a local-area-network (LAN) array configuration, an arbitrated loop, or any other of a variety of conventional client-server topologies.

Response to Arguments

4. Applicant's arguments with respect to claims 1, 2, 5-33 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2876

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
